This is because in some countries 'Debit' is connected only to local network and the transaction may be declined, as it would not reach the VISA / Mastercard network. Your card will continue to function as a Pre-paid Debit Card

1. All VISA / Mastercard ATMs may not have a Balance Inquiry option.
2. In some state/ countries additional charges are levied on non-domestic cards by local banks as per their country specific guidelines.
3. In case you are unable to withdraw the cash from any VISA / Mastercard ATM, try keying a lower amount (as some ATMs have disbursement limit) or try after a few minutes (as the network server may be down)
4. Some ATM's abroad may charge additional fee over and above the fee charged by Axis Bank. These charges are not levied by Axis Bank and hence cannot be reversed. This fee is called as ATM surcharge and are additional fees imposed on customers who use the Axis Bank Forex Card at International ATM's to withdraw cash. Axis ATM fee is levied however surcharges are imposed directly by the International Bank who owns the overseas ATM.
5. To avoid paying surcharge while withdrawing cash from overseas ATM we suggest you look for ATM's that don't charge surcharge fee. Look for a 'No Surcharge' logo or a sign like 'Allpoint'. 'Allpoint' ATM network is surcharge free ATM abroad.

Dynamic Currency Conversion

1. In certain countries, the acquiring banks may choose to activate the feature of “Dynamic Currency Conversion” on their ATM’s and POS machine network. As per this facility the ATM/POS machine identifies the Axis Bank Multi-Currency Forex Card as a card issued from a foreign country and prompts the customer to transact in their “Home Currency”. If a customer selects the “Home Currency” option then you will be charged extra currency conversion fee, hence please do not select this option. Kindly do not use your Forex card on merchant outlets who opt for DCC - (Dynamic currency conversion) option at the time of settlement of your bills while swiping Forex card. Always ask a merchant to settle the transaction in the currency loaded on your Axis Bank Multi-Currency Forex card.
2. We urge you to note that as the Multi-Currency Forex Card is purchased and loaded with the purpose of using the card in the respective foreign currency, the customer must avoid selecting any option that prompts for a change in usage of currency, to avoid any adverse exchange rate.
3. The ‘Dynamic Currency Conversion’ feature may appear with different terminology depending on the overseas bank
